SUMMARY

Fullstack Web Developer skilled in TypeScript, React, Next.js, Node.js, Express, and MySQL/Prisma. Gained production experience through a 4-month front-end internship at PT Teknologi Edukasi Indonesia and the DBS Foundation x Dicoding Coding Camp 2025, scoring 87/100. GPA 3.87/4.00, TOEFL Prediction 613. Open to junior fullstack, frontend, or backend roles.

EXPERIENCE

Front-End Developer Intern

PT Teknologi Edukasi Indonesia

Oct 2025 – Jan 2026

- Redesigned the Luarsekolah landing page using Laravel Blade and Tailwind CSS, improving the Lighthouse score from 60 to 92 across all device breakpoints.
- Built 8+ reusable Blade components and integrated 3 backend API endpoints, reducing template duplication and enabling dynamic content rendering.
- Collaborated with 4 other developers through daily standups; opened and reviewed pull requests before merge.

Fullstack Developer

Capstone Project "Nutrilance" (DBS Foundation x Dicoding)

May 2025 – Jul 2025

- Led a 5-person team to build Nutrilance, a web app that turns user dietary input into personalized diet plans, food recommendations, and recipes powered by an ML model.
- Built the full frontend in React.js and Tailwind CSS, and Flask REST APIs with SQLite, connecting ML predictions to a responsive UI with a Lighthouse performance score above 85%.
- Scored 87/100, placing in the top cohort of Coding Camp 2025.

EDUCATION

Universitas Sangga Buana YPKP

Oct 2022 – 2026

Bachelor of Engineering, Informatics Engineering, GPA 3.87 / 4.00

SKILLS

Frontend: TypeScript, JavaScript, React.js, Next.js, Redux, Tailwind CSS, Shadcn/ui
